1. Company Introduction & Partnership Rationale

Resonate Club is a boutique travel agency specializing in premium Korean·USA golf tours and USA·Korea luxury cultural journeys. Headquartered in Busan, South Korea, we leverage 15+ years of Los Angeles local networks to design and operate differentiated premium travel packages.

Unlike mass-market agencies, we focus exclusively on small premium groups (2–8 guests), carefully curating golf courses, hotels, restaurants, and transportation services. Through direct contracts with each partner, we maintain transparent pricing while delivering exceptional experiences to guests and a stable, high-value client channel to our partners.

2. Package Portfolio

3. Pricing Structure & Margin Model

Resonate Club employs a transparent 40% standard markup model, consistently applied across all partner relationships.

Cost Basis:	Partner's actual invoiced amount (Net Cost)
Markup:	40% of Net Cost (uniformly applied)
Selling Price:	Net Cost × 1.40
Margin Rate:	28.6% (as percentage of selling price)

Example: Golf course green fee \$200 Selling price \$280 (Partner receives full \$200, our margin: \$80)

Key advantages of this model:

- Partners receive 100% of their invoiced amount — no discount or rebate negotiations
